

Thursday February 11th

In today's lesson we are going to be using our wolf questions to create a leaflet/poster about wolves.

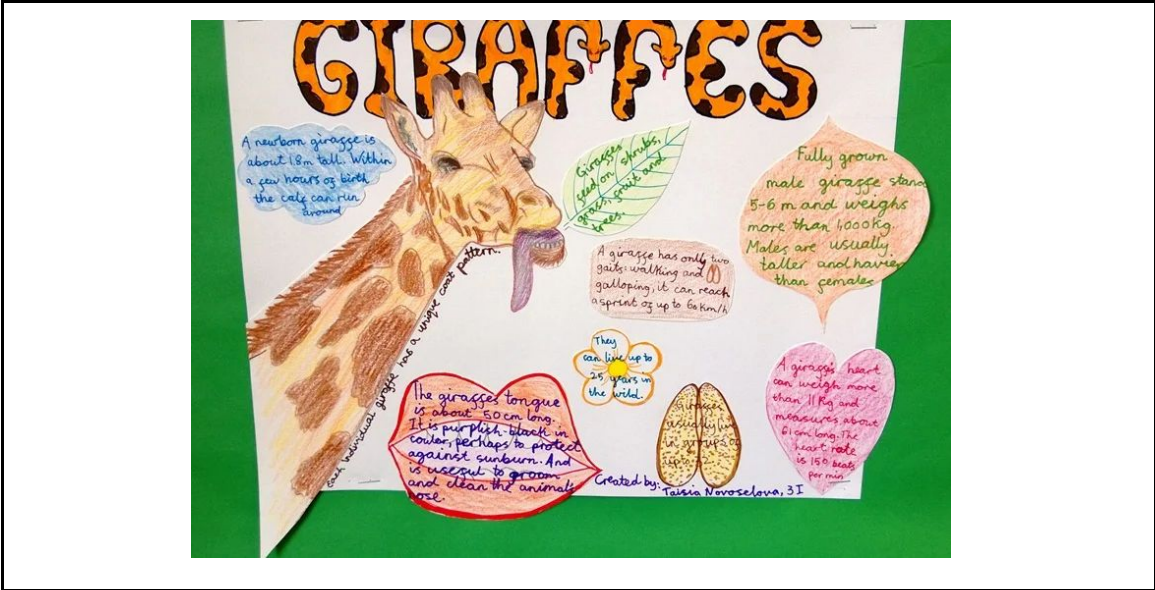

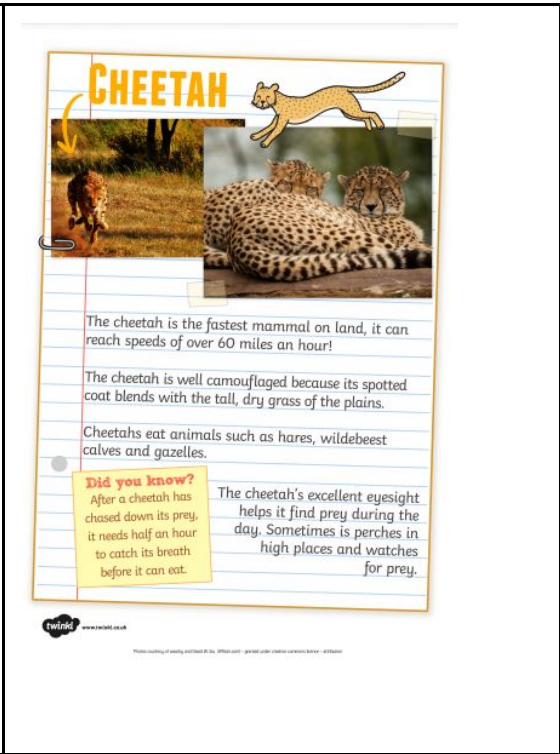

What makes a good information leaflet?

Title, sub headings, fact boxes, pictures, bullet points, labels.

What do we normally find on an information page, non-fiction fact page or leaflet?

We would like you to create your own wolf fact page. You could make a poster, leaflet or booklet. Here are a few ideas:

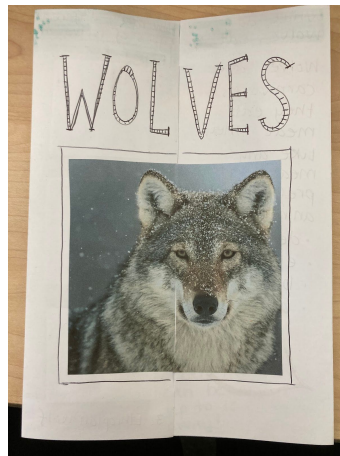

It is up to you how you decide to present your information, but I would like you to use the question you wrote on Tuesday to be the subheading for each section.

If you don't have a printer to print out some photos to use or if you'd rather save some ink I have printed a variety of photos and left them in the office that you can pick up if you want. Or you could draw some pictures instead.

Here is the one that I made!

I decided to make a leaflet! Here is my cover.

Then I looked at my questions from the session on Tuesday and made them the subheadings. Later I went over them in blue to make them stand out. Then I copied out the information about what I had found out underneath. I also used some bullet points and numbers!
