

Wednesday 10th February

Recognising Notes

Ask your child to discuss what they know about these notes. Ask them questions about how we could use what we know about coins to help us talk about the notes. Prompt them about how to identify the notes by their features and markings (e.g. number, colour, size, picture). Show them the Let's Learn picture and ask them if they can see these differences.

In Focus

What notes are these?

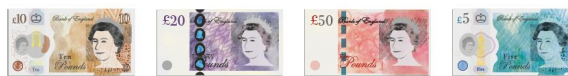

Let's Learn

Now have a go at the Guided practice questions and complete pages 122 - 124 in the workbook.

Guided Practice

1 Which of these is a 20-pound note?

2 What notes are these?

3 How many are there?

4 Which of these can get you the greatest number of books?

Now it's time for a mind workout! You may want to have a go at today's Maths Challenge too, Good Luck!

Mind Workout

Which notes can pay for the teddy bear?

£15

Maths Journal

Sam

A larger coin has a larger value than a smaller coin.

Is Sam correct?
